"Uncle Sam's" Weather Bureau
Had Its Course All
Mapped Out.

Pensacola the Only Place in Florida
With a Freeze-On-Weather
Further West—Vast Amount
of Damage.

(REGULAR ASSOCIATED PRESS REPORT.)
WASHINGTON, November 24.—Prof.
Moore, Chief of the Weather Bureau, in
a bulletin concerning the recent storm,
says:

This disturbance belongs to the type
of southwestern storms which have
their origin near the Texas coast during
the fall and winter months, and then
move northward over the central valley
and lake region, attended by heavy
rain and snow, and is usually followed
by severe cold waves. This storm was
apparently forming near the Texas
coast on the 23rd, but did not appear
as well marked depression until the
afternoon of the 24th. It was preceded
by a severe north wind from the
23rd, and its development retarded the
southwesterly movement of the cold
wave which covered the country to the
northwest. The bulletin shows that the
course of the storm was fully fore-
casted in special warnings, including
storm signals issued by the bureau.

THE DAMAGE SUMMARIZED.
CHICAGO, Nov. 27.—Returns from the
storm of Monday night show that it did
a vast amount of damage in other parts
of the country, as well as in Chicago
and vicinity. Houses were blown down
or unroofed by the gale at Cleveland,
O., Covington, Ky., and many points
in Ohio, Indiana, Illinois and Michigan.
The storm was felt over nearly half the
country. A thousand derricks were
blown down in the Findlay district,
causing a loss of \$70,000. Farm houses,
outbuildings and fences in the sur-
rounding country were damaged to the
amount of \$80,000.

In Hartford City, Ind., five hundred
derricks were laid low, loss reach-
ing \$100,000. At Elmhurst, Ind., several
buildings of the Pittsburgh-plate glass
works were demolished and two men
were injured. The loss was \$15,000. The

England and the Ashantees.
COLON, (Columbia) Nov. 27.—The Ad-
vocate, a Jamaica newspaper, in a spir-
ited article denounces as unjust the war
which England proposes to wage
against the Ashantees and trusts that
the Ashantees may wipe out the Brit-
ish. It expresses a desire to make its
voice ring in solemn protest against the
war as Chatham's rang when England,
120 years ago, made war upon her own
colonies in North America.

ZELLA NICOLAUS'S SUIT.
THE REAL FACTS OF THE CASE
ARE NOW OUT.
She Got a Forty-thousand-dollar
Check from Howard Gould, but
Only Got Five Hundred Dollars
of It from His Brother.

(REGULAR ASSOCIATED PRESS REPORT.)
NEW YORK, Nov. 27.—(Special Dis-
patch) George Gould's lawyers are
now in Chicago, taking depositions,
which they intend to use in the trial of
Zella Nicolaus's suit against George
Gould for the recovery of a check which
she alleges he took from her by fraud.
The depositions of these lawyers, who are
preparing for the Supreme Court at
Jersey City next month, have re-
vealed the talk about the affair, and
now the truth is out.
Several Chicago mansions were hired
and furnished by clubs of rich New
Yorkers during the fair. These houses
were occupied for a stated period by
each of the subscribers in turn. One of
the heirs of Jay Gould's fortune was a
member of one of these clubs. He had
a right to a certain very handsome
house for two months, beginning with
the middle of May, 1893. While he was
living there in splendor, he met Zella
Nicolaus. The joint heir of Jay Gould
got on exceedingly well with Zella, and
by the 1st of July they were exceedingly
good friends. In the first week of July
he received a check for \$40,000 from
New York. It represented his share of
the interest on the Missouri Pacific
bonds for six months of 1893. Miss Nic-
olaus tried in vain to get the check
cashied at Chicago. She decided to go
to George Gould, and came to New
York.

HE WAS RESPECTABLE.
REV. JULIUS FEICKLE IS GRANTED
A SALOON LICENSE
The Hoboken Pastor Thinks He Can
Make More Money in Selling
Beer Than by Saving Souls.
Something of a Curio.

(BY TELEGRAPH TO THE TIMES.)
NEW YORK, Nov. 27.—(Special Dis-
patch) Hoboken has always been re-
nowned for its beer. There are some
churches there, but they are not so
frequent that one trips over them in
turning corners, as is the case with the
saloons. The question of Saloon vs.
Church has been laid up in a new
light recently in Hoboken by the action
of a minister who has forsaken the
church for the saloon on the ground
that there is more money to be made
behind the bar than behind the pulpit.
Up to the present no minister had
ever applied to the Hoboken Board of
Excise for a license to sell wine, beer
and liquors. When the application came
in for a transfer of a license of a saloon
from the former owner to Julius Feickle
there was some question about his
character, and references.

"Has this man ever kept a saloon be-
fore?" asked one of the members.
"How do we know he is a respectable
and responsible person?"
"You can ask any of the congregation
of the First German Evangelical Con-
gregational Church," replied Feickle.
"I have just resigned as pastor of that
church."

A murmur of surprise went around
the board, but the license was promptly
granted. Since then Feickle has been
doing a profitable trade in his place.
Look at these things a little differently
with the business.
"Do you consider it proper for a min-
ister to run a saloon?" he was asked.
"Maybe not while he is preaching, but
when he gets through preaching, it's all
right if he runs an honest business,"
Feickle said today. "In Germany, where
I came from, and here in Hoboken, we
look at these things a little differently
from your way in New York. Selling
beer is a good business. I keep a decent
place and I am not ashamed of it."

"Not unless the business gets better,"
replied the saloon-keeper. "I could
make out of this place, and I am not
enough to support a wife and two boys
on. I can do better than that at this
I expect I am still a member of the
class of South Bergen, however, and
am qualified to preach. Many people
seem to think a minister behind a bar
is a curiosity, and come in here to look
at me as they think that I am a
thing queer. I don't mind that."

"Has anybody tried to convert you
yet?"
"Not yet, unless you can call an at-
tempt at conversion the remark of a
young man who put his head in here
one day and told me I was reeling down
hill to hell on a beer barrel."

Schlatter Takes Up Healing.
DENVER (Colo.) Nov. 27.—A special
to the News from Rouse, Colo., says
that Francis Schlatter stopped on his
journey southward at the house of a
man named Johnson, a short distance
north of this city, today. News of his
coming had preceded him, and he was
soon besieged with applicants for
treatment. He remained for more than
an hour, treating more than a hun-
dred, after which he resumed his jour-
ney, heading toward Trinidad.

The Jury Splits on Heary.
CARSON (Nev.) Nov. 27.—The jury
in the case of James Heary, accused
of stealing bullion from the United
States mint reported today that after
being out eighteen hours, they could
not agree. The jury stood 8 to 4 for
acquittal. A new trial will begin Mon-
day.

The Palma Explosion.
MADRID, Nov. 27.—It was officially
announced today that three deaths have
occurred as a result of a recent explo-
sion at the cartridge factory of Palma,
Island of Majorca, and that out of the
fourteen persons injured, only two are
expected to live.

Insured by an Explosion.
SANTA CRUZ, Nov. 27.—As Minister
Piola was passing through Soledad
last Monday the Swiss residents of
that vicinity were at the depot to pay
him, private respect. An anvil was
used for firing salutes, and in loading
the second time, a can of powder was
ignited and exploded, causing Martin
Francini, who had charge of the firing
of the salute, to be so badly injured
that he may be blinded for life.

Province of Manitoba.
WINNIPEG (Man.) Nov. 27.—Exciting
events are pending in Canada. Within
a month the Parliament will be sum-
moned to pass a remedial order direct-
ing the Manitoba government to re-
store to the Roman Catholics their
parochial schools. Then will come the
climax to the long and bitter warfare—
a climax that may disrupt the con-
federation of Canadian provinces. It is
said that it is inevitable that, if the
Dominion authorities restore Catholic
schools in that country, they can only
do so by force.
In Winnipeg there is said to be a
growing movement in favor of seces-
sion from the Dominion, which in re-
ality means the setting up of a crown col-
ony independent of Ottawa authority.
But it is certain that Premier Greenway
and those back of him are ready to re-
store the restoration of Roman Cath-
olic schools. The Premier does not qual-
ify his assertions in this regard.

A Lynching in San Salvador.
SAN SALVADOR, Nov. 27.—Advices
from San Miguel give an account of
what is said to be the first lynching
that ever took place in this republic.
A band of twenty masked men as-
saulted the police officers who were
taking a prisoner to Cacaaguatle. The
prisoner was wrested from the police
and killed at once. The affair created
the most intense excitement.

THAT MESSAGE
Grover is a-Straining

"The Tariff is a Tax" Will Be
With Us Again—Cuba
and Currency.

E. C. Benedict Says the President
is Yearning to Get Rid of the
Servitude of State—Frisco's
Spell-binders.

(REGULAR ASSOCIATED PRESS REPORT.)
WASHINGTON, Nov. 27.—There are
good reasons for the belief that in his
forthcoming message to Congress Pres-
ident Cleveland will strictly adhere to
his previous utterances in regard to the
tariff and financial questions and it is
altogether probable that these subjects,
together with that of our foreign af-
fairs, will occupy practically, if indeed,
not absolutely the whole message to the
exclusion of all other matters. It is
believed that the President will com-
mend the present tariff as a step in
the direction of lightening the burdens
of the people, and, though it has thus
far failed to bring sufficient amount
of revenue to satisfy the needs of the
government, it may be expected to do
so under normal business conditions.
It is believed that he will point out
that already a vast amount of revenue
from customs and internal revenue
shows a gradual return to business
prosperity, and, in the near future, that
from these sources will meet all the leg-
itimate expenses of the government.
It is not, therefore, thought that Mr.
Cleveland will recommend any addi-
tional revenue taxation, either by in-
creasing the duties now existing or by
adding new subjects. There has been
considerable discussion as to whether
the President might not favor a tax on
domestic wines or beer, or a stamp-tax
on bank checks, legal documents and
such information as is obtainable
makes it more than probable that he
has not considered any of these ques-
tions in that connection. That he will
recommend legislation retiring green-
backs by the issue of low-rate bonds
seems to be almost certain, and it is
not unlikely that he will ask Congress
as an alternative to authorize the Sec-
retary of the Treasury to issue low-
rate bonds in lieu of the redemption of
the Cuban insurance. While there
is good reason for the belief that the
President has steadily adhered to the
view expressed in his inaugural ad-
dress, in the realm of foreign affairs, the
subject which, it is expected, will claim
the greatest share of attention at the
hands of the President and of his na-
ture will require the most statesman-
like caution and treatment of the bel-
ligerency of the insurgents, there are in-
dications that very recent events, and
notably the adoption by the insurgents
of a policy of waiving claims to prop-
erty, including vast sugar es-
tates belonging to American citizens,
may oblige him to change his atti-
tude he has occupied heretofore in
favor of a more vigorous and positive
line of action.

According to the precepts of interna-
tional law, and as practiced in the case
of our late rebellion, Spain cannot be
held accountable for these losses by
Americans, provided, of course, that
she has done all in her power to stop
the destruction of private property and
also, that Spanish citizens are equal
sufferers by the operations of the insur-
gents.

If the President should recognize the
belligerency of the insurgents, it is con-
tended that he would bind them to the
observance of civilized warfare and be
in a position to insist upon the aban-
donment of this policy of destruction of
private property under peril of interfe-
rence with the United States. The
President may feel justified in using
this argument of great American losses
with Spain as a reason for insisting
that she should press matters to a con-
clusion in some way.

Another matter that undoubtedly will
figure largely in the message to Con-
gress is the Venezuelan boundary dis-
pute. The President will endeavor
to show that he has done all that it is
possible to accomplish to carry out the
directions of the United States Senate
effect a settlement of this difficulty by
arbitration. He will refer to the foreign
correspondence of the past year, in-
cluding Secretary Olney's last and most
pressing note to Ambassador Hayard
and the reply of the British govern-
ment which, there is reason to believe,
will amount practically to an expres-
sion of its willingness to a limited but
not a full arbitration. It is believed
the message will show that the Presi-
dent has made clear to Great Britain
the deep concern the United States feels
in the affair, and its desire for a peace-
able settlement of this important sub-
ject. In this shape the Venezuelan dis-
pute will be laid before Congress for an
expression of its will in the further
guidance of the executive.

The Bering-sea claims will also be
touched upon and it is believed that
the President will take the ground that
the United States be in honor bound
by the Paris arbitration and the modus
vivendi of the United States and Great
Britain, and that Congress should pay
the claims. Congress should be
favorably upon a conviction which he
will submit, providing for the appoint-
ment of a commission to ascertain
and settle them.

The remaining chapters of the portion
of the message relating to foreign af-
fairs will be largely devoted to a recital
of the efforts of the State Department
in behalf of ex-Consul Waller, a discus-
sion of the feasibility of completing the
Nicaragua canal, according to the re-
vised project, and congratulatory refer-
ences to the good results attending the
efforts of the United States ministers
in China and Turkey to protect the
rights of American residents there.

The Federal grand jury was adjourned yesterday till December 3.

Today being a legal holiday, Sunday hours will be observed at the postoffice.

Thanksgiving service today at St. John's Episcopal Church will commence at 10:30, and will be fully choral.

The students of the Woodbury Business College have raised and turned over to the Associated Charities \$18 as a Thanksgiving offering.

Police Officer Johnson, who has been nursing a "bicycle" knee since October 29, is again able to report for duty, but walks with a painful limp.

A set of single harness, belonging to Thomas B. Jones was stolen from a buggy standing in front of his residence, on Tuesday evening.

From 3 to 9 p.m. today, at the Young Women's Christian Association, No. 107 North Spring street, there will be a home-coming for all young women.

Wilmington Lodge, No. 198, F. and A. M., has elected the following officers: D. R. Clay, master; Ben Edelman, S. W.; Benton McCoy, J. W.; J. P. Sylva, treasurer; A. F. H. secretary.

The County Hospital will not be open to visitors hereafter on Mondays, but will be open on Sundays and Thursdays. This rule does not apply to people who have relatives or friends among the patients.

The Associated Charities has donated to the kindergarten of the College Settlement, No. 629 New High street, a share of the clothing and provisions given to the association by the public school children.

Ella Hart was in the United States District Court yesterday on proceedings for contempt. She explained that she was unable to pay her expenses from San Francisco to attend court, as summoned, and on this showing was discharged.

Fire at an early hour yesterday destroyed the barn of A. Bikel at Arnold and Bikel streets. A horse was burned and a number of articles of value were consumed. The loss amounted to about \$500, the insurance being \$250. There are some indications pointing to incendiary.

"The Intermediate State" was the subject discussed last night at the First Christian Church by Evangelist Romie, using a large chart to illustrate his sermon. He showed that the three conditions of the soul under the Jewish dispensation, life, death and the final punishment or reward of the individual. In shades there is a division between Paradise and Tartarus, two conditions. During this dispensation there was no forgiveness, but by each annual atonement the sins of the people were pushed forward to the atonement made by Christ on the cross.

The Overland Road would make a fifty-dollar rate. It is Western Roads trying to reach an agreement with the Union Pacific.

An Associated Press dispatch from New York says no further action was taken at yesterday's session of the Atchafalpa Reorganization Committee. The committee adjourned until later in the week, probably Friday. It had been expected that a chairman of the board of directors would be appointed and a third vice-president be selected at yesterday's meeting, as well as a board of directors.

A FIFTY-DOLLAR RATE. SAN FRANCISCO, Nov. 27.—Third Vice-President of the Southern Pacific received notice from Chicago today that the Southern Pacific, Union Pacific and their connections had decided to make a \$50 round-trip rate between Chicago and San Francisco, in case the National Republican Convention was held in San Francisco.

THE WESTERN ROADS. CHICAGO, Nov. 27.—The troubles of the Western roads in the formation of their passenger association are apparently at an end. Late this afternoon it was only needed that the Canadian Pacific should give its consent to this agreement to bring it into full working order. The representative of the Canadian Pacific, who was in attendance at the meeting, was unable to bind his road to the agreement, and wired for instructions. It is expected, however, that the response will be favorable, and that the roads will then have an association covering all the business between Chicago and the Pacific Coast.

If the agreement goes into effect the Southern Pacific will have to content itself with such a share of the west-bound emigrant business as will be allowed it by the emigrant clearing-house. With this thing out of the way the only thing that will upset the agreement is the difference of the Soo line and the Chicago-St. Paul lines over east-bound steamship business. The roads interested in this business will be in session this evening.

HUNTINGTON AT GALVESTON. GALVESTON, (Tex.) Nov. 27.—(Special Dispatch.) Collis P. Huntington, president of the Southern Pacific, and H. S. Huntington, Julius Kruttschnitt, A. C. Hutchinson and L. M. Leggett, all officers of the Southern Pacific railroad, arrived today. They came on an inspection tour of the government jetties. Huntington has said that he would have his train running in here as soon as Galveston became a deep-water port.

After his inspection here today of the port in general, Huntington said he was much pleased. It is said the Southern Pacific has been negotiating for an entrance to Galveston over the rails of the Galveston, La Porte and Houston Railway, and it is supposed that something definite will result from Huntington's visit.

SUCCEEDED SOLICITOR THURSTON. OMAHA, Nov. 27.—Judge William R. Kelly was today officially appointed general solicitor of the Union Pacific Railroad Company to succeed John M. Thurston, who resigned to take his seat in the United States Senate. Judge Kelly has been assistant general solicitor of the Union Pacific.

COMING BY BOAT. SAN FRANCISCO, Nov. 27.—The passengers on the steamer Santa Rosa for Los Angeles are: C. Hansen, H. H. Worley, George Clendening, Mrs. M. C. Emmons, W. C. Ramsey and wife, J. A. Cooper, C. P. Benson, G. K. Smith and ten steerage passengers.

For Santa Barbara, Mrs. E. Benedict, Andrew Woods, Mrs. Donovan and three steerage passengers.

THE POLICE COURT. A Cook Must Raise Dough to Pay for Battery.

In the Police Court yesterday Fred Smith, a cook, was fined \$15 for battering another cook. Smith's employer paid the fine and got him out of jail, and the belligerent chef will now proceed to raise the "dough" with which to repay the obligation, out of a different kind of batter.

James J. Johnson, the hobo who stole four boys' suits from Cohn, the clothier, and got caught by Cohn himself, was given a 120 days' sentence.

J. P. and J. E. Barker were fined \$2 each for hauling sand from the river bed, contrary to city ordinance.

W. E. Salsberg got a 100 days' flog for vagrancy on officer while on the police force, from which he resigned two or three years ago to go into the saloon business.

Death of Theodore H. Roberts. Ex-Policeman Theodore H. Roberts died at his residence, No. 733 South Los Angeles street, yesterday noon, from the effects of a surgical operation for appendicitis, performed last Monday.

He had been seriously ill only since last Saturday. Roberts was just in the prime of life, being only a little over 35 years of age. A widow and three children survive him. Roberts had a good record as an officer while on the police force, from which he resigned two or three years ago to go into the saloon business.

The Other Side. Members of the Board of Supervisors say that notwithstanding a great deal has been said about the expenses of the county and the demands that are allowed by the board little attention has been given to the amount of demands disallowed by the board. Of these a record has been kept and the record shows that since January 1 there were 272 demands rejected, amounting to \$27,548.23.

DEATH RECORD. SMITH.—In this city, November 25, 1895, Susan M., beloved wife of Edwin Smith, died at her residence, No. 727 Coronado street, Friday, November 23, at 4 o'clock. Friends are invited. Interment, Boston, Mass.

GOODWIN.—In this city, at 5 o'clock Tuesday morning, at No. 40 Jackson street, Josie Goodwin, wife of Bernard Goodwin, aged 21 years and 5 months.

Funeral from the Cathedral, on South Main street, Friday morning at 9 o'clock.

ROBERTS.—At his residence, No. 301 South Grand avenue, November 27, 1:30 p.m., Theodore H. Roberts, in his 40th year. Funeral notice later.

MOURNING hats and bonnets rented. No charge to customers. Ebel's, 218 S. Spring.

TOP buggies \$15, at Hawley, King & Co's.

PERSONALS.

J. O. Selbert and family of Grand Rapids, Mich., and Miss Della Huelster of Ontario are among the arrivals at Broadway Hotel.

Late arrivals at the Hotel Ramona include M. L. Freeman of Salt Lake, A. H. Freeman of Riverside, Charles A. Parker of Minneapolis, G. W. Haslow of Coulterville, S. S. Large of Denver, Messrs. Maxwell Keely and Julian Murray, two newspaper writers of the East, are in the city en route to San Francisco, where they embark December 3 on the steamer Australia for Honolulu and the antipodes.

DECORATIONS AT NEWBERRY'S. The exquisite taste with which J. R. Newberry's big store has been decorated this Thanksgiving has been the subject of much talk throughout the city. For two days past the place has been thronged with admiring and appreciative visitors, and the house has had a trade that is probably without a parallel in Los Angeles. Certainly these beautiful Thanksgiving decorations will not soon be forgotten.

TO SEE CALIFORNIA. You must go around the Kite-shaped track.

FURNACES. The "California," manufactured here, especially adapted to climatic conditions, free from gas and dust, easy to manage and moderate in cost. For sale by the Cass & Smurr Store Co., Nos. 224 and 226 South Spring street.

A HANDICAP RECORD.

BALD WINS THE BIG RACES AT SANTA ANA.

Cooper Makes a Wonderful Finish in the Third-of-a-Mile "Old Rose" Taylor Captures a World's Record Bicycle Race.

SANTA ANA, Nov. 27.—(Special Correspondence.) Santa Ana had a better opening day for its race meet than Los Angeles and though the wind cooled the air some, the temperature was comfortable. The attendance was very poor, but the racing was excellent and some of the races were the best of their kind, ever run in California.

The only record broken was in the two-mile handicap, class A, when W. A. Taylor of the Duquesne Wheelmen rode from scratch in 4:24.1. The best time ever made prior to this for two miles in a handicap race was that of Sanger's, in the professional handicap at Springfield in September last, when he made 4:24.4. The handicap was held by S. D. Cabanne of St. Louis, and is 4:32.5, made at Wilkesboro, Pa.

Bald went for the mile handicap record in the class B handicap and could have broken the record of 2:08.2-5, made several years ago, if the bunching of the field on the corners had not slowed down the whole. He was the only scratch man, and this was his fifth handicap race this year. Murphy was to have ten yards, but could not ride on account of the decision of the national racing board.

The field was as follows: Tom Cooper, 15 yards; C. S. Wells, 15 yards; Earl Kiser, 25 yards; H. E. McCrea, 25 yards; W. M. Randall, 40 yards; W. A. Terrill, 40 yards; V. A. Burke, 40 yards; E. Ulbricht, 40 yards; W. H. Patton, 55 yards; C. Castleman, 55 yards; G. Schmidt, 55 yards; J. M. Campbell, 55 yards; F. Shefski, 65 yards; P. Kitchen, 65 yards; P. G. Lacy, 75 yards.

On the first turn Bald had picked up Wells, with Cooper just ahead of them. When the first lap ended all were in single file, trailing. Bald started to go up front and all bunching with the Detroit wheel cutting through the field of red, yellow, orange and striped suits, while not far behind Cooper's blue and white silk tights was another flying world-beater, also in blue and white, and this was the Buffalo lad who has been bracketed with the great Zimmerman on account of his championship work of this season.

Around the flying wheel and riders came again and handsome Tom Cooper is in first place, our own McCrea second and the champion only fourth. Then for the third and last time this smooth track in America. Trainers are yelling, people are standing up and everybody is filled with breathless excitement.

The final was the prettiest short-distance race ever run in Southern California. The men lined up thus: Bald, Kiser, Randall, Cooper, Wells, Burke, Terrill. Bald went right to front on the start, and all were close about him. Never before have California riders witnessed such a finishing spurt as that of Cooper's, who came from fourth place to within eighteen inches of the winner's front wheel tire, and all inside of a hundred yards, and meanwhile all going like Jehu. Bald won as usual.

There was pretty riding among the class A men in all their heats, and honors were about equal. Freeman beat McFarland by an inch in the final heat, and McFarland beat Downing almost as close in the final. Cromwell was the class A star of the day on account of winning the two-mile class A handicap in a driving finish.

SUMMARY.

Mile novices. Won by Arthur S. Tabor, Riverside; M. H. Eastman, Santa Ana, second; time 2:15. Tandem paced by I. Fields and E. B. Sanford.

Third of a mile class B: First heat won by Kiser, Cooper second, Burke third, McCrea fourth; time 0:48. Second heat won by Bald, Randall second, Wells third, Terrill fourth; time 0:45. Final won by Bald, Cooper second, Kiser third, Wells fourth; time 0:45.

Half-mile open, class A: First heat won by Freeman, McFarland second, Yegoman third; time 1:49.4-5. Second heat won by Downing, Whitman second, Taylor third; time 1:33.5. Final won by McFarland, Downing second, Freeman third; time 1:35.

Mile handicap, class B: Won by E. C. Bald (scratch), Kiser (25 yards) second, McCrea (25 yards) third, Cooper (15 yards) fourth; time 4:17.

Two-mile handicap, class A: Won by Cromwell (50 yards), Yegoman (50 yards) second, Taylor (scratch) third; time 4:24. Scratch man's time 4:24.5, world's record for two-mile handicap.

Three-mile handicap, class B: Won by Kitchen (100 yards), McCrea (50 yards) second, Ulbricht (50 yards) third; time 6:56.

Third of a mile juvenile: Won by "Little Spot" Spooner of Chicago; time 1:30; last quarter 1:34.

Mile against time, paced by Jenkins, Shefski and Kitchen on triplet, made by Randall in 2:08. Team pacing was inexperienced and too slow.

THE CASE DROPPED.

Not Enough Evidence to Prosecute Mrs. Pittroff.

Mrs. Mary Pittroff was in Justice Morrison's court yesterday ready for trial on the charge of adultery. The complaint against her was dismissed, however, on motion of Deputy District Attorney James, with the consent of the complaining witness, John W. Pittroff, the husband. The prosecution weakened, not being prepared to prove that Mrs. Pittroff lived in "open and notorious cohabitation and adultery" with Mr. Peyton, which is necessary to make it a statutory offense.

A statement in behalf of Mr. Pittroff was made, to the effect that he was willing to drop the case and allow Mrs. Pittroff to go her way in peace, provided he would be permitted to visit his little girl, Mrs. Pittroff objected. She said he did not help to provide for her and the little girl and she did not want him to come near her place of abode.

Judge Morrison said so long as they were not divorcing, and the children were not under the care of the court, Mr. Pittroff had a perfect right to see his daughter when and where he pleased.

Mr. Pittroff kissed the little girl as she came out of the courtroom with her mother. The child did not appear to like his caresses and as soon as he let her go, she ran after her mother.

DO YOU WANT A COOKING RANGE? Here's your chance to select from the best lines ever brought to the Coast. Three carloads just in, and in order to keep everybody out, we will for thirty days give you 10 per cent. discount from our regular prices. Everything the very best.

VICTORIOUS CO. B.

Membership Contest at the Young Women's Christian Association.

At 12 o'clock yesterday the rooms and halls at the Young Women's Christian Association were thronged with an expectant crowd. The occasion was the close of an eight weeks' contest between Co. A, Capt. Margaret E. Ervin, and Co. B, Capt. Jessie L. Bates. The purpose of the contest was to enlist new members, and secure renewals of memberships.

The young women selected from the membership who comprise the rival companies have displayed an enthusiasm and secured results in reporting new members which is certainly unparalleled in association history.

The captains have called their companies together at various times, organizing their forces and planning for the attack. Afternoon and evening receptions have been given in the interest of each company, where, in the brief and pointed presentation of the association work, new friends have been gained and new members enlisted. When the figures were placed on the bulletin board yesterday, in the presence of both captains and companies, a united cheer went up when it was found that Co. B had won the day. There have been secured of one-dollar memberships, 406; of sustaining five-dollar memberships, 143; renewals of one-dollar memberships, 143; renewals of sustaining memberships, 15.

In one of the early conferences of Co. A a plan was devised to raise \$100 to make the president, Mrs. Z. D. Mathison, a life member, as a token of the love and esteem in which she is held. This was successfully carried out. At about the same time Co. B began the laudable undertaking of raising \$100 as a reserve membership fund to give the benefits of the association to young women otherwise unable to secure them. This received such approval that \$109 were contributed.

The total membership in the association is 1128. Warm congratulations to the valiant captains of Co. A and Co. B were tendered by those present. One of the conditions at the outset was that the defeated company should at the close entertain the victors and the new members. This request will be held at the rooms on the evening of December 5.

SAVED A WOMAN'S LIFE.

Police Officer Davis Bears His Honor Modestly.

Police Officer Harvey Davis distinguished himself yesterday by saving a human life at the peril of his own.

Mr. Davis was guarding the First and Spring street crossing when he saw an old lady step directly in front of a Downey avenue car which was swinging from Spring street into First.

The officer had motioned her back with his cane, but she evidently was "rattled," and did not heed the signal. The car was within about four feet of her, when the officer, who was about six feet distant, made a spring for her, caught her around the waist and swung her from the car, barely escaping from being run over himself.

The woman weighed about 160 pounds, and had Officer Davis been less of an athlete, he could not have thrown her out of the way of the car. Eye-witnesses of the affair applauded the officer's gallant act, but he very modestly declined to receive any praise for it, saying it was only such an act of simple duty as is performed by policemen every day. Besides, Mr. Davis claimed, the carman had brought the car to a stop before it reached the spot where the woman stood, so she would not have been run over after all.

CHAMBER OF COMMERCE.

Military Headquarters for Los Angeles Desired.

At a meeting of the board of directors of the Chamber of Commerce, yesterday afternoon, President W. C. Patterson, ex-President Daniel Freeman and Gen. Charles Forman were appointed a special committee to urge the re-establishment of military headquarters in Los Angeles.

S. Nordlinger was elected to membership. The following exhibits were received yesterday: Crock-necked squash, yellow dent corn and King Phillip corn, from H. M. Good, Verdugo; persimmons and sweet potato weighing nine and one-half pounds, from J. C. Sherer, Verdugo; yellow-dent and white-dent corn and Snow's Improved soft-shell walnuts, from A. P. Hoffman, Tuluca; Mission olives, from G. T. Gowler, San Fernando; Jabory persimmons, from Mrs. J. Laborry, Boyle Heights.

She Wants a Divorce. Mrs. Elizabeth M. Lehman is hunting anxiously for a divorce from Fred E. Lehman on the ground of non-support. Fred is not cruel to her, and he is perfectly willing to live with her, being, in fact, decidedly opposed to the idea of any divorce, but Elizabeth says that he doesn't appreciate her baby because it happens to be of the gentler sex, and that he "stuck on another girl." Elizabeth has been doing the Griselida act, or as she artlessly phrases it, "wanting kicking" at her husband's performances, but she accuses him of being a "dude," and of "blowing in" too much money on his own sweet self and not enough on her and the baby, so she wishes to set up a separate establishment. The advisability of her doing so was argued all day, and, when the shades of evening fell, Judge McKinley was still unsettled in his mind as to whether or not he should snap the holy bonds of matrimony and turn the couple loose.

An Ungrateful Tramp.

A tramp called at the residence of Miss Josie Blessington, No. 261 Downey avenue, and begged for something to eat. He was invited into the house and given a good meal. The ungrateful wretch repaid the favor by stealing a valuable gold ring which he picked up when Miss Blessington's back was turned. She did not discover her loss before the tramp was gone. The police have a good description of the vagabond, and he will doubtless be run in.

LOVE'S YEARNING.

What is it, little maiden, that you pause upon and ponder. With a love so full of wonder? What does your spirit move? Whilst wistfully you're dreaming, in their depth a light is beaming. Ah, well I know you're thinking of Youth's golden dream of Love!

And you, with manhood burning, why are you waiting for? The unkind Fate's upbraiding because they're fickle prove? In passionate accents speaking, a something ever seeking. Oh, say, is not your arrow the old, old theme of Love?

And you who scorn to marry, and ever, ever tarry? With clouds upon your forehead as stern as warlike Jove? At times wild thoughts come thronging, with a hunger and a longing. Oh, is it not your fainting heart that cries aloud for Love?

Each day the birds are singing, their merry notes are ringing. From mountain high and valley, from tree and shady grove. The zephyrs dreamily sighing o'er flower-strewn fields are flying. And everywhere is welling the mystic tale of Love!

O Nature, blessed spirit of God, how sweet to hear! This song thy children murmur wherever I roam! All else is but illusion, a vanishing confusion. There's nothing real on earth but this, this something we call Love!

P. MAURICE M'MAHON.

Vanities, October 19, 1895.

WHAT ABOUT OUR KIDNEYS?

SOME FACTS ABOUT THEIR PAINS AND DISEASES.

The Symptoms of Sick Kidneys and the Diseases that Sick Kidneys Will Cause—A Sure Cure for the Kidneys and for These Diseases.

There are a great many people who don't know that the kidneys are simply filters. All the blood made by the food we eat passes through our kidneys.

The kidneys separate what is bad from what is good, what is unhealthy from what is healthy, throw out the bad and let the good pass on to nourish our body.

And this is going on every minute of our lives. Some folks overwork their kidneys. They have to suffer the consequences. But the consequences would not be so bad if they would take Dr. Hobb's Sparagus Kidney Pills.

The kidneys get overworked from worry, hard work of the body or mind, excesses, overeating, etc.

Worry is probably the most common of these causes. Overwork of the kidneys makes them sick, and they make us sick.

When the kidneys are sick the blood suffers. It gets poor, thin, unhealthy, poisonous. When our kidneys are sick we may have Bright's disease, diabetes, nephritis and other dangerous kidney troubles.

Or we may have rheumatism, gout, neuralgia, general muscular weakness, etc.; or anæmia, pale and sallow complexion, chlorosis or green sickness, dizziness, etc.; or skin diseases, pimples, blotches, eruptions, etc.

It may seem wonderful that one medicine should be able to cure all these diseases, but when we remember that they are all caused by impure blood, and that the impure blood is caused by the kidneys, it becomes a question of simple common sense.

The kidneys make pure blood. Pure blood means health. Therefore, when you have diseases of impure blood, cure your kidneys with Dr. Hobb's Sparagus Kidney Pills.

This will make you well and strong and hearty. Dr. Hobb's Sparagus Kidney Pills contain, in concentrated form, special vegetable drugs which cure and renew the kidneys.

The combination from which they are made is found in no other medicine or prescription. It was first used by Dr. Hobb in his private practice many years ago, and was so successfully successful that his original prescription was finally made up into Dr. Hobb's Sparagus Kidney Pills. The concentrated extract of sparagus, which is the principal ingredient, is prepared exclusively by the Hobb's Medicine Co., under a special process.

Dr. Hobb's Sparagus Kidney Pills will cure you when you are sick. They will put new blood and new life into you. They will give you new ambition, new looks and new brightness of eyes and skin. A few doses will relieve. A few boxes will cure.

Of all druggists, or mailed prepaid to any address for 50 cents a box. Write for interesting pamphlet on the subject, free on application, to Hobb's Medicine Co., Chicago or San Francisco.

An unexpectedly early arrival of large shipments of Holiday Goods has placed us in dire need for fixture space, and to somewhat relieve ourselves, we will for a few days offer special inducements in our

Corset and Glove Depts.,

At prices that cannot fail in securing for us the sought for result. A few of the principal items are here quoted.

Corsets.

We have a very extensive and complete line in all the celebrated makes. Thomson's Glove Fitting, R. & G., Dr. Warner's Health, 4 in. Hand and Coraline, P. D., S. K., and other French makes. The following are only a few samples of the values we are offering.

We have such a variety of shapes and styles that we can guarantee a perfect fit to the form of any and every lady.

At 50c. We are offering our celebrated "Vigilant" Corset, made of heavy drab jean, well stayed throughout, with long waist and medium form to fit the average figure; we place this Corset on sale at.....50c

At 75c. We are offering the well-known R. & G. Corset in black or drab, with extra long waist and medium form, double front steels and two side steels, well made and neatly finished with silk stitching; we place this Corset on sale at.....75c

At \$1.00. We are offering Thomson's Glove Fitting Corset, in black or drab, with extra long waist, in either high or low back, heavily boned and well tempered steels; an elegant fitting Corset that we place on sale at....\$1.00

At \$1.25. We are offering Dr. Warner's French Health Corset, adapted to ladies deficient in bust fulness and desiring but support of both slender and stout figures. It is boned with unbreakable Coraline, which gives an elegant figure and well fitting dress to any lady; we place it on sale at.....\$1.25

At \$2.50. We are offering the genuine S. K. Corset, made in either heavy gray, cotton or black or cream Satin; for perfection of fit, comfort and strength it has no equal; it is cut on a French model and is suitable for ladies of medium forms, desiring a heavy, strong Corset. We place it on sale at.....\$2.50

Gloves. We have made a special purchase of 5-hook and 4-button real Kid gloves, which we consider the best value ever shown on this Coast; we have them in all shades and they are a genuine \$1 Glove; we place them

On Sale At 75c.

Our own special brand "Utopia" has the large pearl buttons, silk and black embroidered backs; this Glove comes in long and short fingers, soft and pliable kid, will be fitted and every pair guaranteed.

On Sale At \$1.00.

Our 6-button length Biarritz Glove in a full assortment of staple shades; for general wear it has no equal, and will be placed

On Sale At \$1.00.

Our line of Jeanette Pique, which found such favor last season for fall and winter wear, is now complete; it is all gusseted between the fingers and excels all others in durability and comfort.

On Sale At \$1.00.

Our 8-button Suede Mousquetaire Real Kid Glove, comes in black, slate, tan, brown and mode shades; it is the perfection of fit and very dressy.

On Sale At \$1.00.

NO EXPERIMENTING

At the English and German Specialists.

They Do Not Try Half a Dozen Remedies to See Which Is the Best, but they Ascertain the Cause of the Disease, Remove It and Cure Their Patients.

Hundreds of Grateful Ones Have Testified To Their Skill in Curing Chronic Diseases.

It is no wonder the reception rooms of the English and German Specialists are daily crowded by their patients, when it is known that they are making cures in chronic diseases, that other doctors have given up as incurable. If all the world could only see the gratitude shown by those who have been restored to health, after they had given up all hope of ever being well again, it would be a sight never to be forgotten.

When people grasp the hands of these doctors and with glistening eyes, and tremulous voice, tell how hope is again alive in their hearts, how they are once more able to work and earn a living for the wife and family, it ceases to be a wonder that the English and German Specialists are kept busy alleviating human suffering.

When people grasp the hands of these doctors and with glistening eyes, and tremulous voice, tell how hope is again alive in their hearts, how they are once more able to work and earn a living for the wife and family, it ceases to be a wonder that the English and German Specialists are kept busy alleviating human suffering.

ENGLISH AND GERMAN EXPERT SPECIALISTS

Their Great Success. Their great success in curing chronic diseases has been a surprise to their patients, many of whom came at first doubting the ability of any one to cure them of their long standing ailments.

But these same patients, like many other sufferers, had never had an opportunity of consulting with men, whose medical education, obtained in the best colleges and hospitals of this and the old country, has been supplemented by years of careful investigation and close study in their chosen specialties, until they have each of them become thoroughly acquainted with the particular class of diseases they treat.

An Educated Staff. When you come to the English and German Specialists you do not find one physician treating all kinds of disease, but a staff of educated physicians, each treating their specialty. Are they then not better able to understand your case than those doctors who attempt to cure all diseases?

No Experimenting. At the English and German Specialists, there is no experimenting, but with that certainty coming from long experience, and a thorough medical education, they locate the cause of your disease, and then remove it. Your system commences to build up at once, and your cure is rapid and permanent. Their specialists, Dr. P. Janus, Dr. Price, Dr. F. Palmer, Dr. L. Meyer and Dr. C. S. Hopkins treat their several specialties with marked success.

ONE TREATING—Catarrh, Bronchial Troubles, Asthma and Lung Diseases.

ANOTHER TREATING—Private and Nervous Diseases of Men and Women and Chronic Diseases.

A THIRD TREATING—Diseases of the Stomach and Skin, removes Tape-worms, cures Kidney and Bladder Troubles.

A FOURTH TREATING—Diseases of the Skin and Scalp, Eczema and Diseases of the Blood and Circulation and Heart Troubles.

THE SURGEON OF THE STAFF—Performs all operations and treats all cases of deformity, including Spinal Trouble, Rickets, Hip Joint Disease, removes Goitre, Fistula and Piles, Rupture and Cancer without the use of the knife.

When you need medical skill at all, you need the very best. You can find the best equipped, the best fitted, the best educated, and the most experienced staff of physicians, every one an expert in his chosen specialty, in all California, at the English and German Specialists in the Byrne Building.

Owing to the prevalence of catarrh and bronchial troubles in Los Angeles and vicinity, Dr. Price, the most eminent Catarrh Specialist in California, will treat catarrh and bronchial troubles for \$5 a month including medicines. \$5 a month pays all the cost of his treatment, and hundreds of those who have tried other doctors and received no lasting benefit, have been cured by Dr. Price.

Dr. Price is now one of the staff of the English and German Specialists, Byrne Building, corner Third and Broadway. Take elevator.

Consultation always free. Parties too far away to consult the English and German Specialists in person, can write, fully describing their symptoms, and receive free a letter of advice and The New Guide to Health.

IA NEWS

What is

incorporated. This is the only
institute of the kind in the west
where ladies who expect their
confinement to be under the
care of regular physicians and trained
nurses, and find perfect education,
and a pleasant home.

FEMALE DISEASES.—Students
of Obstetrics (midwifery). We wish
to say that with this Institute, regu-
lar physicians are connected; also a lying-in
so that students will receive practical and
theoretical lessons. Male and female
students admitted.

THE EDUCATORS.

CONCLUSION OF THE TEACHERS' INSTITUTE YESTERDAY.

The Meetings Have Been Well Attended and Were Found Profitable.

Vocal Music as an Educational Factor—It Gives Refinement and Religious Sentiment.

The Subject "History" Treated Exhaustively—Questioning Considered as a Fine Art—Interesting Address.

The City Teachers' Institute completed its labors at yesterday's session, which began in the auditorium of the High School building at 9 o'clock in the forenoon. After roll-call and music by the High School Mandolin Club, Mrs. Mary E. Gordon delivered an address on "Vocal Music as an Educational Factor." The speaker was of the opinion that much of the refinement and religious sentiment which exist in modern civilized communities may be attributed to the softening influence of music in the human struggle for existence, which so often becomes almost brutal. She said in part:

"The first tonal system of which we have authentic knowledge, and the one we believe to be the original, was that in practice among the Greeks. It is the only ancient plan of music which has had any perceptible influence upon modern musical art, and was the product of the brain of Pythagoras, about 500 B. C.

"The musical scale of the Greeks consisted of seven tones, identical in number and name with the principal heavenly bodies, the sun, moon, Mercury, Venus, Mars, Jupiter and Saturn. The Greeks had a superstition that these heavenly bodies were intimately connected, by some mysterious link, with the seven musical tones.

"Among the Egyptians the knowledge and science of teaching was confined largely to the priesthood, which guarded the treasure and doled it out jealously. It was utilized as an instrument to further deepen the already great mystery of their dark and devious fanatical services.

"There existed among the Chinese, in ancient times, a music and a normal tone, a circle of fifths and a normal tone. The music of the Chinese, as in the case of almost all other nations, was evolved from their religion.

"The musical system of the ancient Hindus bore a striking resemblance to that of the Greeks.

"The civilizing influence exerted in the early ages by Greece upon all peoples who became familiar with her forms of culture was far-reaching and very complete. With a delicate poetic temperament and refined sensibility, their musical ideas were necessarily quite exalted.

"David, the Israelite, the immortal poet of his race, was a musician with a holy inspiration.

"The dawn of the Christian era brought forth new sources of inspiration to the musician. Love, faith, hope and charity, and the beautiful and ennobling stories of the holy word gave new themes for the songs of the different peoples among which the word found its way. Music, in the early history of Christ's followers, was an important part of their worship. It was the sweetest, almost the only, consolation of the captive. Even the pagan was turned from his blind fetishism to the Christian's religion by the faith which sang its way of victory over death. St. Augustine said he traced his conversion from the refining influence exerted upon him by the music of the Christians.

"In the sixteenth century, when the great cathedral of St. Peter was erected in Rome, and when Michael Angelo, Raphael and Titian were at the height of their power, was the period also in which the eternal city, the recognized center of musical culture, was restored.

"Music made rapid strides in the seventeenth and eighteenth centuries. In the eighteenth century the German nations advanced much more rapidly than other nations in musical culture.

"Though America is probably far behind most European nations in musical culture, the refining influence of the music taught in our public schools is

very great. American composers are comparatively few, but they are increasing in number. When we become able to interpret the grand creations of Handel, Mozart and Wagner, we will be better men and women."

E. E. Cates treated the subject "History," and spoke in part as follows:

"The future of our country is in your hands. There are great dangers ahead of us, and thoughtful men recognize that the three R's are not potential enough to meet these dangers. Something more is needed, but, above all, we need of country which the history of our country can alone inspire, and when, through it, you have moulded the character of your pupils, when through it you have given us a generation of intelligent freemen, who will not be the prey of the demagogue, who will not be ready to embrace every fanatical idea presented them by crack-brained theorists; when you have grounded in them the knowledge that freedom is not license, that liberty is not anarchy, and that the rights and property of the individual are as sacred as life; when you have done all this, you will have the proud consciousness of knowing that you have guaranteed the future to those who are to follow us, and your country will owe you a debt of gratitude which it can never fully repay."

"The old Greek legend, representing its Muse of History as of divine lineage and the oldest of the sisters, rested on a philosophic as well as a poetic basis. With dim perceptions of the nature of a future life, men early sought it in the record of their early deeds, hoping thus to win immortality in spite of death. History thus ministered to the individual, and, in the dim twilight of the race, sang of the wrath of Peleus's son and the fortunes of the excited men of Troy. As to the importance of the individual merged in that of the nation, it was the jealousies of rival States and foreign conquests that employed her pen. Nations, like individuals, are of special interest to themselves, and their achievements in war and politics were recorded by admiring and servile chroniclers. Men saw, in history, only an attempt to rescue from oblivion national and individual deeds worthy of emulation or deserving universal commendation. Like our own period, therefore, the Muse of History has, with few exceptions, been a mere annalist looking from a lower window. Men and events have passed before her, but she has cared not whence they came nor whither they went. But, as chemistry is the outgrowth of medieval alchemy, and astronomy of astrology, of a still more ancient day, so modern history has been developed from the chronicles of a remote past. Clo no longer sits alone in enduring fame for her heroes, but she depicts the past that men may live more wisely in the present, and, as the muse of comparative history, she goes to the mountain tops and makes the whole world hers by right of empire.

"The teaching of history has two aims: First, to familiarize with like deeds, events and personages; second, to teach how to read history.

"The reader of history is trained in judgment by the fastening of his attention upon the materials at hand, by reflecting upon them to see to what results they point, by deciding as to their logical relations and by expressing the result in suitable language.

"The pressing problems of the day are those of well-managed cities, decent country roads, efficient schools, restricted saloons, an honest ballot, capable voters, and a clean local government; questions all in the hands of the State, and yet we continue to select our State, county and city officers largely on their views of the tariff and the coinage.

"But it is in the history of our country where the teacher can find the noble characters that help to inspire patriotism and love for country.

"Although it is the settled policy of the American people that there shall be no form of religious instruction in our public schools, whether it be wise or not, is not for me to say, but I do say that the teacher who has conducted a class through the history of this country and who has failed to impress upon the minds of her pupils that God has been guiding us all these years and that His hand is visible on every page of our national history, is unfit to be a teacher of Christian youth."

The High School Mandolin Club rendered a musical selection.

J. B. Millard spoke at some length and in an interesting manner on "The Art of Questioning."

"Questions, if properly applied, test every phase of the child's life; his power to observe, to recall, to reproduce, to imagine, to compare, to analyze, to generalize, to judge and to reason. There is a tendency, especially among enthusiastic teachers, to allow the paramount object of teaching, testing, to be lost sight of and to let

the incidental instruction run away with the recitation. Children immediately discover this and take advantage of it. When I was a pupil I saved myself, many times, from disgrace by preparing for a question which I heard coming down the line and of which I was profoundly ignorant. I forestalled it by leading the teacher into some discussion, illustration or explanation in which the main question would be lost sight of, the recitation exhausted and salvation from disgrace secured for myself.

"The objection to the method is that it is apt to degenerate into mere talking. Many pupils can talk about a subject, but to answer directly, concisely and accurately well-directed questions is an entirely different matter."

"The questioning gift seems to be more natural than acquired, and the manner of asking the questions will be determined by the genius and inspiration with which the teacher is endowed. The teacher must be plant in speech without tendency toward hesitation."

"The promiscuous method of asking questions is a continual exercise in mental gymnastics, because each member of the class, in his own way, will solve every question asked."

Dr. F. B. Dresslar treated "Sight and Hearing" and spoke at some length of the mechanical appliances by the agency of which noises were produced and a chart with letters and figures upon it to be viewed at a distance. Experiments were made by teachers in the audience to ascertain at what distance a noise could be heard or a character seen distinctly. Considerable amusement and instruction were afforded the audience by the exercises.

FAREWELL MEETING.

City and County Teachers Listen to Interesting Addresses.

At the final and joint session of the city and county teachers in the Assembly Room of the State Normal School building yesterday afternoon, the exercises opened with a selection by the High School Male Quartet.

Dr. F. B. Dresslar followed with a description of "A plan for Systematic professional work," which had been adopted by the teachers in the seminary department of the Normal School. The plan, said the speaker, was intended to be studied during leisure hours, for instance, in vacation, and utilized in the regular school work. Many authorities and specialists on methods of teaching were cited and recommended for perusal.

At the conclusion of the speaker's very lucid, unfolding of a somewhat technical scheme it was adopted by unanimous vote of the teachers as the plan of the school for the coming year.

"Talk with Teachers and Patrons," by State Superintendent Samuel T. Black, followed. The speaker thought it would be a good idea for school trustees of the different counties to meet at regular periods, say once every year, and discuss school matters. A hint was thrown out that the average teacher was too distant and did not embrace his profession with that warmth demanded by the high standing of the calling. It was suggested that the salaries paid teachers were not, as people sometimes say, too high. They were barely high enough and in some cases not sufficient. Many teachers make their calling a stepping stone to some better-paying business.

"Not until the State, or public opinion," said the speaker, "demands professional study in addition to scholarship, from all who would teach, will teaching advance from a calling or occupation to the dignity of a profession. Modern educational thought and practice, in all sections where excellent schools are found, confirm the belief that there is a profound philosophy on which educational methods are based, and that careful study of this philosophy and its application under expert guidance are essential to making fit the man born to teach."

"Character-building is the ultimate

end for the individual, and a higher form of civilization for the nations of the world. In teaching, the teacher's ceaseless endeavor, in every branch of study, should look to the prevention of habits of wrong-doing and the cultivation of habits of well-doing. This end in view, character-building far transcends, in importance, academic, art and individual training."

"As the miser lives ever, in thought, with his gold, the lover with his beloved, so the student lives always with the things of mind, with what is true and fair and good. High purpose and the will to labor mark those who are predestined to distinction. The main defect of our education lies in the fact that we are taught everything except how to work wisely, bravely and perseveringly, how to strive, not for money and position, but for virtue and wisdom. Work reveals character. We know what a man is when we know not what his opinions and beliefs are, but what he does or has done. The true educator strives to draw forth and strengthen the sense of truth and justice and to develop a taste for the pure and noble pleasures of life. His aim is to make men good and reasonable, rather than to make them smart and eager for possession and indulgence."

T. H. Kirk followed with an address on "Creative Forces in Teaching."

"The creative power should be inculcated in the pupil," said the speaker, "through imagination. The characters who have left the impress of their genius upon the pages of the world's history have been those who went beyond the immediate present and actually fashioned a new line of thought. Evolution, in its highest sense, means progress, and progress means the birth of a new conception." The speaker deprecated the pessimistic quality of the evolutionary theories so popular nowadays, and reminded his hearers that human beings are children of one Creator and probably capable of things which we now consider infinite. Teachers were urged to breathe into their pupils, through their imagination, that breath of life which will lift them above their fellows toward their ideal destiny, that of children of the Divine Creator.

A vote of thanks was voted County Superintendent Spurgeon V. Riley and City Superintendent J. A. Foshay for the admirable management of the two institutes.

The following committees were announced: To confer with Dr. F. B. Dresslar on his "Plan for Systematic Work," W. H. Holland, J. M. Griffiths, J. P. Anderson, John E. Wright, F. A. Molyneux, J. C. Stormont, W. W. Donnell, J. W. Mosher, M. R. Williams, C. E. Frazier, G. S. Trowbridge, J. M. Stewart, A. Carmichael, C. T. Meredith, J. H. Strine, H. H. McCutchan, F. W. Guthrie and N. F. Smith; to recommend a course of professional study, J. B. Millard, Mrs. F. H. Byram, Dr. A. V. Plummer, Miss L. A. Williams, G. H. Chilcote, Mrs. M. J. Frick and Miss Helen E. Hunt.

One complaint

that we heard of was from a woman who said that Pearline hurt her hands! We knew that this couldn't be. But we looked into the matter, and found that she was using one of the poorest and most dangerous of bar soaps with her Pearline. When we induced her to use Pearline alone, without this soap, everything was lovely. Use no soap, when you do any washing or cleaning with Pearline. It's needless, and more expensive—and it may do harm.

Millions NOW USE Pearline

When Others Fail Consult DR. LIEBIG & CO

NO. 125 SOUTH MAIN STREET.

125 SOUTH MAIN STREET.

ORANGE ORCHARD FOR SALE AT RIVERSIDE.

Forty acres of orange orchard with a frontage of a quarter of a mile on the most desirable portion of Magnolia avenue. From 15,000 to 18,000 boxes of fruit are now hanging on the trees. This is the finest and most productive orchard in Riverside, and is owned by a non-resident, who wishes to realize on the property. It will be sold at a price which will make it the best bargain in orange property ever offered, and if sold before January 1, 1896, the crop will go with the place. Parties contemplating purchase should not fail to visit Riverside and inspect this property. For terms and particulars apply to John D. North, attorney-at-law, rooms 7 and 8 Evans block, Riverside, Cal.

YOU ARE INVITED TO THE KILLING

Haven't time to send each of you a personal invitation, so please take the will for the deed, and don't fail to be present at the

KILLING OF PRICES ON JACKETS AND CLOAKS CHILDREN'S

Which commences TOMORROW MORNING at 9 o'clock. Our entire stock must be closed out at any sacrifice. We are compelled to have the room. It's the finest stock in the city today. The Children's Jackets come in ages from 4 to 10 years. The Cloaks can be had in ages from 6 to 14 years. The variety of styles and patterns is very large and handsome. Never in the history of the Cloak business have there ever been such prices quoted as we are going to close ours out at.

Remember Today is the Day.
